## Potential Issues / Incompatibilities

✗ **Warning!** Some AMD B450 chipset motherboards may need a BIOS update prior to using Zen 2 CPUs. Upgrading the BIOS may require a different CPU that is supported by older BIOS revisions.

📌 **Note:** Some physical dimension restrictions cannot (yet) be automatically checked, such as cpu cooler / RAM clearance with modules using tall heat spreaders.  
(Flag issues/incompatibilities as incorrect.)
